STATE BUDGET
2025-26

BUDGET PAPER 1: BUDGET OVERVIEW

A summary publication capturing all highlights from the 2025-26 Budget.

BUDGET PAPER 2: BUDGET SPEECH

A copy of the Treasurer's speech, delivered to Parliament.

BUDGET PAPER 3: BUDGET STATEMENT

A financial report presenting the state government's current and estimated future economic performance, fiscal strategy, budget priorities, expenditure, revenue, assets, liabilities, risks and government business.

BUDGET PAPER 4: AGENCY STATEMENTS | VOLUMES 1, 2, 3, 4

Various financial reports presenting the state government's current and estimated revenue, expenses and performance by agency.

BUDGET PAPER 5: BUDGET MEASURES STATEMENT

A financial report detailing the state government's expenditure, savings and revenue initiatives.

ACKNOWLEDGEMENT OF COUNTRY

We acknowledge Aboriginal people as the state's first peoples, nations and Traditional Owners of South Australian land and waters. We recognise that their unique cultural heritage, customs, spiritual beliefs and relationship with the land are of ongoing importance today, and we pay our respects to Elders past, present and emerging leaders of the future.

Definitions

Agency

An agency is an administrative unit created under the *Public Sector Act 2009* or a statutory authority that is accountable for the delivery of programs on behalf of the government.

Programs and sub-programs

A program is a group of related activities that contribute to achieving one of an agency's and, in turn, the government's objectives. Many programs are further divided into sub-programs with more specific objectives.

Overview

The agency statements outline projected agency activity and performance for 2025-26. Each agency statement conforms to the following standard presentation structure:

- Objective — outlines the agency's objectives
- Ministerial responsibilities — identifies the minister responsible for each program/sub-program and identifies any items administered by the agency on behalf of the minister(s)
- Ministerial office resources — details the resources provided to ministerial office(s)
- Workforce summary — summarises the agency's workforce
- Program net cost of services summary — summarises the net cost of agency programs
- Key agency outputs — summarises services provided
- Investing expenditure summary — summarises investing expenditure for the agency
- Program/sub-program information — for each agency program/sub-program, provides a description/objective, program summary (income, expenses and full-time equivalents), financial commentary, highlights and targets, performance and activity indicators
- Financial statements — budgeted financial statements for controlled and administered items
- Summary of major variations — explanation of significant movements not included at the program/sub-program level.

Presentation of changes in program structures

Where a program or function is transferred between agencies, program information for previous years is reflected in the current program structure of the receiving agency.

In contrast, the agency financial statements are based on the actual program structure for the agency as it operated or is expected to operate in each year. This distinction in treatment is drawn so that financial statements accurately reflect events while, at the same time, program information is comparable and not duplicated.

Reconciliation of the financial statements to the current program structure is contained in the program net cost of services summary located at the beginning of each relevant agency section.

Financial statements

The estimated financial statements included in the 2025-26 Agency Statements are estimates which include, for each agency, a statement of comprehensive income, a statement of financial position and a statement of cash flows.

The presentation of these estimated financial statements is consistent with the requirements of *AASB 101 Presentation of Financial Statements* and *AASB 107 Statement of Cash Flows*.

Estimates in these financial statements have been prepared:

- on a basis that is consistent with Treasurer's Instructions and Australian Accounting Standards applicable for the 2025-26 financial year,
- on an accrual basis, except for the statement of cash flows which has been derived from the statement of comprehensive income and statement of financial position to reflect cash payments and receipts, and
- using historical costs as the measurement basis, except for certain assets and liabilities that are measured in accordance with the financial reporting policies applicable.

Consistent with Australian Accounting Standards, estimated transactions and balances that are controlled are budgeted for, and reported on, separately to estimated transactions and balances which are administered but not controlled by the agency.

Ministerial responsibilities

The ministerial responsibilities table provides a comprehensive list of the agencies and programs which fall under the responsibility of each minister, and is presented in Ministerial Order of Precedence.

Minister	Agency	Programs
The Hon. PB Malinauskas Premier	Department of the Premier and Cabinet	1. Premier and Cabinet Policy and Support
		2. SA Productivity Commission

Objective

To provide services which enable the fair and independent election of government and governing bodies which helps and encourages the community to participate with confidence and trust in the democratic processes of representation.

Ministerial responsibilities

Minister	Programs	Sub-programs
The Hon. KJ Maher Special Minister of State	1. Electoral Services	1.1 Parliamentary Electoral Services 1.2 Non-parliamentary Electoral Services

Administered items

In addition to the above responsibilities, the agency administers the following items on behalf of the minister:

- Electoral Districts Boundaries Commission
- public funding of election campaigns for participating individuals and parties
- special assistance funding for reimbursement of administrative costs incurred by registered political parties with parliamentary representation
- statutory officer salaries (Electoral Commissioner and Deputy Electoral Commissioner).

Statutes

The Department of the Premier and Cabinet maintains a list of statutes applicable to ministers.

Workforce summary

	FTEs as at 30 June

Program 1: Electoral Services

Description/objectives

The Electoral Commission of South Australia conducts fair and independent state, local government and nominated agency government elections and utilises its skill base to support non-government electoral activities and offers electoral advice across all community sectors.

A range of electoral services and products are provided, covering the parliamentary and non-parliamentary sectors, including:

- conduct of elections for representatives to sit in the state parliament, members of the First Nations Voice, local government authorities and other organisations
- monitoring and reporting disclosures of donations and campaign expenditure for registered political parties, candidates, agents and third parties
- administering the public funding for election campaigns for registered political parties and candidates
- reimbursements of administrative expenditure incurred by registered political parties
- electoral education and information provision for the South Australian community
- research and evaluation of electoral matters
- electoral roll products and maps
- support for parliamentary electoral district boundary and council boundary representation reviews.

Sub-programs

Sub-program 1.1: Parliamentary Electoral Services

Description/objective

Ensures the delivery of parliamentary electoral services for the South Australian community.

Highlights 2024-25

- Delivered the Black by-election.
- Completed the Dunstan and Black by-election parliamentary report.
- Provided voting services to interstate electors for electoral events in the Northern Territory, Australian Capital Territory, New South Wales, Western Australia and Tasmania.
- Developed and implemented an electoral education program for school students.
- Continued planning and preparations for the state election in March 2026 including modernisation of election management systems and workforce fatigue management plan.

Targets 2025-26

- Plan and deliver the state election in March 2026 including modernisation of election management systems, implementation of a workforce fatigue management plan and implementation of *Electoral (Miscellaneous) Amendment Act 2024*.
- Implement requirements of the *Electoral (Accountability and Integrity) Amendment Act 2024*.
- Develop and implement a communication and engagement plan for the state election in March 2026.
- Develop and implement a 2025-2028 Strategic Plan.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**2 501**	2 852	28	840
Expenses	**41 624**	10 038	7 913	8 677
Net cost of sub-program	**39 123**	**7 186**	**7 885**	**7 837**
FTEs as at 30 June (No.)	**27.3**	37.3	30.3	24.4

Explanation of significant movements

The increase in expenses in the 2025-26 Budget compared to the 2024-25 Estimated Result ($31.6 million) is primarily due to the conduct of the state election scheduled for March 2026.

The increase in income and expenses in the 2024-25 Estimated Result compared to the 2024-25 Budget and the 2023-24 Actual is primarily due to inclusion of intra-government transfers and expenses for the new election management systems and expenditure on the by-election conducted in the district of Black in 2024-25.

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
No. of elections challenged and upheld due to administrative error *2024-25 and 2023-24: No elections challenged.*	**—**	—	—	—
Size of the variance between initial results and any required recount *0.2% equates to a variance of 2 in every 1000 ballot papers.* *2024-25 and 2023-24: No recounts required.*	**<0.2%**	n.a.	<0.2%	n.a.
% of parliamentary elections declared within 18 days of poll close *2024-25: House of Assembly by-election in the district of Black.* *2023-24: House of Assembly by-election in the district of Dunstan.*	**100%**	100%	100%	100%
% of people eligible to vote enrolled on the roll *2024-25 Estimated Result: based on 31 March 2025 State of the Roll report provided by the Australian Electoral Commission.*	**>95%**	97.5%	>95%	97.6%
No. of publicity and public education programs delivered	**4**	2	2	1
No. of research activities into electoral matters delivered	**3**	3	3	3

Activity indicators

No. of parliamentary elections (general and by-elections) and referenda *2025-26: 47 House of Assembly elections and 1 Legislative Council election.* *2024-25: House of Assembly by-election in the district of Black.* *2023-24: House of Assembly by-election in the district of Dunstan.*	**48**	1	—	1
No. of parliamentary members elected *2025-26: 47 Members of the House of Assembly and 11 Members of the Legislative Council.* *2024-25: 1 Member for the House of Assembly by-election in the district of Black.* *2023-24: 1 Member for the House of Assembly by-election in the district of Dunstan.*	**58**	1	—	1
No. of parliamentary electors served *2025-26: Projection taken from the estimate in the 2024 Electoral Districts Boundary Commission.* *2024-25: By-election in the district of Black.* *2023-24: By-election in the district of Dunstan.*	**1 328 188**	26 540	—	27 108

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual
No. of electoral events where voting services were provided to interstate/territory or overseas electors *2025-26: Voting services to be provided for interstate electors for the Tasmania Legislative Assembly election.* *2024-25: Voting services provided for interstate electors for the Australian Capital Territory Legislative Assembly election, New South Wales Epping, Hornsby and Pittwater by-elections, Northern Territory General Election, Western Australian State Election.* *2023-24: Voting services provided for elections in New Zealand, Tasmania and the Western Australia Rockingham by-election.*	**1**	6	5	3

Sub-program 1.2: Non-parliamentary Electoral Services

Description/objective

The delivery of non-parliamentary electoral services for South Australian organisations and the community at large.

Highlights 2024-25

- Completed an operational review of the inaugural First Nations Voice to Parliament election.
- Conducted two First Nations Voice supplementary elections.
- Conducted the Anangu Pitjantjatjara Yankunytjatjara (APY) Executive Board election.
- Conducted the Super SA election.
- Conducted 12 local government supplementary elections and two recounts.
- Completed certification of local government representation reviews for 20 councils.

Targets 2025-26

- Plan and deliver the 2026 First Nations Voice to Parliament election.
- Conduct local government supplementary elections as required.
- Commence planning the 2026 local government periodic elections.
- Certify local government representation reviews.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**1 078**	982	982	780
Expenses	**1 788**	1 310	445	3 814
Net cost of sub-program	**710**	**328**	**-537**	**3 034**
FTEs as at 30 June (No.)[(a)]	**2.2**	2.2	2.2	2.2

(a) Estimated average allocation to non-parliamentary activities, excluding local government periodic elections.

Explanation of significant movements

The increase in expenses in the 2025-26 Budget compared to the 2024-25 Estimated Result ($0.5 million) is primarily due to the conduct of the First Nations Voice elections in March 2026 concurrently with the state parliamentary election in 2025-26.

The increase in expenses in the 2024-25 Estimated Result compared to the 2024-25 Budget ($0.9 million) is primarily due to the conduct of two First Nations Voice supplementary elections and costs associated with elections referred to the Court of Disputed Returns in 2024-25.

The decrease in expenses in the 2024-25 Estimated Result compared to the 2023-24 Actual ($2.5 million) is primarily due to the conduct of the inaugural First Nations Voice election in 2023-24 partially offset by two First Nations Voice supplementary elections in 2024-25.

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
No. of elections challenged and upheld due to administrative error *2024-25: The Court of Disputed Returns ruled the result of the 2022 Adelaide Plains Council election was void due to an administrative error.* *The Court of Disputed Returns ruled the result of the 2022 City of Adelaide Central Ward election was void but that it was not due to an administrative error.*	**—**	1	—	—
Size of the variance between initial results and any required recount *0.2% equates to a variance of 2 in every 1000 ballot papers.* *2024-25: recounts conducted for APY Executive Board Pukatja Yunyarinyi Anilalya, Turkey Bore and Mimilli electorates. 0.0% variance.* *2023-24: no recounts required.*	**<0.2%**	0.0%	<0.2%	—
% of rolls provided to councils within five days of roll closure	**>95%**	100%	>95%	100%
No. of information, education, publicity and public education programs, and research activities delivered	**3**	3	2	2

Activity indicators

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual
No. of local government elections and polls *Includes all possible periodic and supplementary elections for mayors, councillors for wards and councillors at large across 67 councils.* *2024-25: 12 supplementary elections and 2 recounts conducted.* *2023-24: 11 supplementary elections conducted.*	**5**	14	11	11
No. of non-parliamentary elections prescribed by acts of parliament *2025-26: First Nations Voice election and Architectural Practice Board.* *2024-25: APY Executive Board, Super SA, Southeastern Water Conservation and Drainage Board, First Nations Voice Central Ward and Riverland South-East supplementary elections.* *2023-24: First Nations Voice election.*	**2**	5	3	1
No. of commercial services provided for client organisations *2025-26: Nil expected to be conducted due to State Election commitments.*	**—**	—	2	—
No. of local government representation reviews completed *The schedule for representation reviews is determined by the Minister for Local Government.*	**22**	20	19	—

Summary of major variations

Statement of comprehensive income — controlled

Explanation of significant movements

Variations to income and expenses are described at the appropriate program/sub-program level.

Statement of financial position — controlled

Explanation of significant movements

The $1.6 million increase in non-current assets in the 2025-26 Budget compared to the 2024-25 Estimated Result is primarily due to investing expenditure related to election management systems in 2025-26.

The increase in non-current assets in the 2024-25 Estimated Result compared to the 2024-25 Budget and the 2023-24 Actual is primarily due to investing expenditure related to election management systems and the head office fit out in 2024-25.

Statement of cash flows — controlled

Explanation of significant movements

The variations in cash inflows and outflows are consistent with the variations to income and expenses described at the appropriate program/sub-program level and the statement of financial position.

Statement of comprehensive income — administered items

Explanation of significant movements

The decrease in income and expenses in the 2025-26 Budget compared to the 2024-25 Estimated Result is primarily due the conclusion of Electoral District Boundaries Commission (EDBC) activities in 2024-25.

The increase in income and expenses in the 2024-25 Estimated Result compared to the 2024-25 Budget is primarily due to the carryover of EDBC activities into 2024-25 and public funding payments relating to the by-election in the district of Black.

Statement of financial position — administered items

No significant movements.

Statement of cash flows — administered items

Explanation of significant movements

The variations in cash inflows and outflows are consistent with the variations to income and expenses described above in the statement of comprehensive income and the statement of financial position.

Additional information for administered items

Additional information on administered items is included in the following table.

Objective

The South Australian Country Fire Service (CFS) serves communities through dedicated volunteers delivering professional fire and rescue services to outer metropolitan, regional and rural South Australia.

The objectives of the CFS are:

- to provide frontline services with the aim of preventing the outbreak of fires, reducing the impact of fires, and preparing communities through comprehensive community engagement programs
- to provide efficient and responsive frontline services for the purpose of fighting fires, dealing with other emergencies or undertaking any rescues
- to protect life, property and environmental assets from fire and other emergencies
- to develop and maintain plans to cope with the effects of fires or emergencies
- to provide services or support to assist with recovery in the event of a fire or other emergency.

Ministerial responsibilities

Minister	Programs	Sub-programs
The Hon. ES Bourke Minister for Emergency Services and Correctional Services	1. Country Fire Service	1.1 Frontline Service Delivery — Operations 1.2 Frontline Service Delivery — Operational Support

Statutes

The Department of the Premier and Cabinet maintains a list of statutes applicable to ministers.

Workforce summary

Total	**101 042**	**112 245**	**100 985**	**107 118**

(a) The net cost of services excludes transfers from the Community Emergency Services Fund.

Key agency outputs

- Provide capability through equipment, training, and knowledge to dedicated volunteers delivering professional fire and rescue services to save lives, protect property and the environment across outer metropolitan, regional and rural communities of South Australia.
- Provide statewide bushfire prevention and community engagement programs to support community safety and resilience.
- Provide timely and accurate information and warnings to the public in times of an emergency so that they make informed decisions to protect and preserve their lives.
- Provide information, skills and knowledge to stakeholders to integrate bushfire mitigation across government and the community, and to protect communities, critical infrastructure and high value assets throughout South Australia.
- Provide development assessment services and approvals for building applications for domestic buildings in high risk bushfire areas, and for commercial and industrial developments for buildings in the country to protect occupants, reduce potential damage to infrastructure, and improve safety for emergency services personnel.

Investing expenditure summary

The 2025-26 investment program is $33.9 million.

	Estimated completion	Total project cost	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget

(a) Fleet renewal projects presented in the 2024-25 Budget are now included as part of annual programs.

Program 1: Country Fire Service

Description/objective

The CFS delivers a comprehensive range of fire and rescue services to the community. Our volunteers, supported by a team of dedicated staff, protect the community by combating bushfires, responding to fires in houses and buildings, rescuing people from car crashes mostly involving high speed collisions and rollovers, isolating, containing and neutralising dangerous chemicals that have been spilt, and in times of need, providing services to the community by assisting other agencies, including frequent responses to storms, floods and ambulance assist.

CFS engages with the community to increase understanding of the risks they face from bushfire and how they can prepare for bushfire events.

When incidents occur, CFS provides information to keep the community informed of the locations and dangers involved.

CFS works with the community, industry, other agencies and local government to identify risks, reduce risks and control hazards.

CFS has strong representation in the community across South Australia. This is achieved through our volunteers, including our cadets, who are committed to protecting their communities. CFS has brigades operating across the state with a large fleet of fire trucks. Local brigades contribute to out of area deployments to assist neighbouring communities, communities elsewhere in the state, and interstate where required.

CFS has a strong focus on frontline service delivery to the community.

With a vision of 'a trusted and effective community based fire and emergency service', the CFS mission is 'an integrated and trusted fire and emergency service, contributing to safer and more resilient communities'.

Sub-program 1.1: Frontline Service Delivery — Operations

Description/objective

This sub-program directly provides the delivery of fire and emergency services to the South Australian community, including the response services by volunteer firefighters who generously give their time to attend incidents, aerial firefighting services, incident coordination, the provision of emergency warnings and incident information, engagement with the community to increase their resilience to fire and other emergencies, supporting the state's bushfire management framework, and maintaining building and bushfire safety compliance.

Operations reflects the core business of a modern, frontline, all hazard emergency service. The actions of staff and volunteers within this program are directly responsible for the protection of lives, property and the environment across South Australia, and the nation where needed. In addition, this program provides for the dedicated incident management service that supports and educates other South Australian government organisations to ensure the management of incidents is controlled effectively and successfully managed.

Highlights 2024-25

- Delivered a Regional Incident Command Centre on Kangaroo Island.
- Delivered upgraded Distress Signal Units across required structural brigades.
- Finalised a review on the modernisation of the CFS cadet program.

Targets 2025-26

- Develop and implement a structural firefighter training program and equip training facilities to support the program.
- Develop and implement an updated bushfire risk mapping capability.
- Deliver an enhanced development assessment capability.
- Implement recommendations from the CFS cadet review.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**5 134**	5 445	4 626	6 999
Expenses	**78 370**	86 817	77 852	84 542
Net cost of sub-program	**73 236**	**81 372**	**73 226**	**77 543**
FTEs as at 30 June (No.)	**145.5**	142.1	139.1	139.9

Explanation of significant movements

The movement in income across years is primarily due to grant funding received for various programs.

The movement in expenses across years is primarily due to response costs incurred for a number of significant fires across the state and the extension of aircraft availability to meet prolonged bushfire risk.

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
Number of 5 Minute Bushfire Survival Plans downloaded from the CFS website *The 2023-24 bushfire season was of a lower relative intensity resulting in less survival plans being downloaded.*	**10 140**	8 646	11 000	5 921
No. of fire deaths per million people in CFS areas (three year average) *The target is based on achievement of lower rates than the national average (as reported in the Productivity Commission Report on Government Services).*	**<3**	<3	<3	1
% of native vegetation clearance applications completed within 10 days	**85%**	85%	85%	96%
% of building development assessments undertaken within 42 days/legislative requirements by CFS	**85%**	90%	85%	90%

Sub-program 1.2: Frontline Service Delivery — Operational Support

Description/objective

To enable the delivery of effective frontline services to the community, CFS provides a solid enabling program, supporting key service delivery outcomes through:

- the procurement and delivery of essential operational physical resources (fire appliances, stations, equipment, protective uniforms) and overall asset management, as well as the application of geospatial information systems
- operational learning and development, professional development and operational improvement activities
- maintaining and developing operational and corporate policy and procedures, undertaking the review and planning of operational capability, and ongoing risk management and governance.

Highlights 2024-25

- Completed installation of Automatic External Defibrillators (AEDs) in all CFS vehicles.
- Delivered 40 new fire trucks across the state.
- Streamlined disciplinary process for volunteers through statutory amendment.
- Developed a volunteer leadership training module.

Targets 2025-26

- Complete an audit of all facilities.
- Complete the Lenswood Fire Station build and commence construction of the co-located Maitland CFS/SES facility.
- Deliver 60 new fire trucks across the state.

FTEs as at 30 June (No.)	**50.5**	49.3	48.3	48.7

Explanation of significant movements

The increase in expenditure in the 2024-25 Estimated Result compared to the 2024-25 Budget is primarily due to the reclassification from investing to operating expenditure for Government Radio Network and pager equipment.

Summary of major variations

Statement of comprehensive income — controlled

Explanation of significant movements

Variations to income and expenses are described at the appropriate program level.

Statement of financial position — controlled

Explanation of significant movements

In addition to the variances described under program summaries, the $20.5 million increase in cash and cash equivalents in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to additional cash to support operations.

Statement of cash flows — controlled

Explanation of significant movements

All movements are generally consistent with those described under the program summaries.

Objective

The South Australian Metropolitan Fire Service (MFS) is a multi-hazard agency to the state of South Australia committed to protecting life, property, the environment and the economy from fire and other emergencies. The functions of the MFS are to:

- provide services with a view to preventing the outbreak of fires and reducing the impact of fires
- provide efficient and responsive frontline services for the purpose of fighting fires, dealing with other emergencies or undertaking any rescues
- protect life, property and environmental assets from fire and other emergencies
- develop and maintain plans to cope with the effects of fires and other emergencies
- provide services or support to assist with recovery in the event of fire or other emergencies.

(a) The net cost of services excludes transfers from the Community Emergency Services Fund.

Key agency outputs

Protecting South Australian lives, property, the environment and the economy by:

- providing urban firefighting and emergency services to the South Australian community
- reducing risks to the South Australian community by researching, analysing and where possible, mitigating risks and hazards
- reducing the number of preventable fires and emergencies that affect the South Australian community
- through education, reducing the potential economic, social and environmental impacts of fires and other emergencies when they occur.

Program 1: South Australian Metropolitan Fire Service

Description/objective

As a multi-hazard agency, the MFS provides a comprehensive range of fire and rescue services and is the primary provider of urban firefighting services to the state of South Australia. The MFS is a statutory authority committed to protecting life, property, the environment and the economy from fire and other emergencies. The MFS is governed by the *Fire and Emergency Services Act 2005*.

The MFS is responsible for the protection of the South Australian community from the effects of fires, road crash, hazardous materials, rescues, and other incidents and deals with the effects of emergencies daily. The MFS operates from 20 stations throughout greater metropolitan Adelaide and 17 stations in major regional centres. The MFS maintains a trained professional workforce that includes full-time and retained firefighters, as well as non-operational management and support staff.

Sub-programs

1.1 Frontline Services

1.2 Frontline Services Support

1.3 Governance and Public Value

FTEs as at 30 June (No.)	**1 009.0**	1 009.0	1 006.0	1 043.6

Explanation of significant movements

The increase in income in the 2025-26 Budget compared to the 2024-25 Estimated Result is primarily due to additional sales of goods and services and base fees adjustments.

The decrease in expenses in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to recalls and overtime, higher regional incidents, higher costs associated with repairs and maintenance for vehicles and buildings, and revaluation of the workers' compensation provision in 2023-24.

Sub-programs 1.1: Frontline Services

Description/objective

MFS Frontline Services protect the South Australian community, the environment, and the economy from the effects of fires and other emergencies. Frontline Services include prevention and response programs.

Prevention programs minimise the frequency and effects of fires and other emergencies and include fire cause investigation, safety inspections of public buildings, regulation, community support and education. MFS personnel also provide engineering advice and assistance with the development of cost-effective fire safety systems.

Response programs reduce risk to South Australian lives, property, environment, and economy, and include 000 call receipts for the South Australian emergency services sector, the dispatch and deployment of emergency resources and the management of emergency incidents. The MFS is the primary provider of structural firefighting services to South Australia and is responsible for the management and response to urban search and rescue for the state, hazardous material and road crash rescue emergency incidents in MFS gazetted areas.

Highlights 2024-25

- Continued the modernisation of MFS policy, procedures and training to improve the safety and effectiveness of incident and hazard management.
- Collaborated with the Country Fire Service (CFS) to develop and implement a modern emergency response along the boundary of the gazetted areas, aiming to enhance services to the community.
- Continued to work with government agencies on new technology initiatives and major infrastructure projects to deliver a modern and responsive emergency service to the South Australian community.

Targets 2025-26

- Continue the modernisation of MFS policy, procedures and training to enhance the safety and effectiveness of all MFS operations and services.
- Collaborate with the CFS and State Emergency Service to develop and implement modern emergency response, particularly in mutual aid areas, aiming to enhance services to the community.
- Partner with government agencies on new initiatives and key infrastructure projects to deliver a modern and responsive emergency service for all South Australians and for those who visit the state.
- Continue the capital works program of purpose-built personal protective equipment storage rooms at fire stations to ensure a healthier working environment for all firefighters.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**8 163**	7 091	7 008	8 959
Expenses	**158 146**	155 005	153 976	179 103
Net cost of sub-program	**149 983**	**147 914**	**146 968**	**170 144**
FTEs as at 30 June (No.)	**886.0**	886.0	883.4	916.4

Explanation of significant movements

The decrease in income in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to higher fees and other revenue received in 2023-24.

The decrease in expenses in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to recalls and overtime, higher regional incidents, and revaluation of the workers' compensation provision in 2023-24.

Sub-program 1.2: Frontline Services Support

Description/objective

The goal of the Frontline Services Support sub-program is to ensure the MFS is effectively prepared and capable of responding to the community's needs. Frontline Services Support contributes directly to community confidence in the MFS' capability to respond to emergencies and to protect the community, infrastructure, environment, and economy. Frontline Services Support programs are essential to the provision of effective frontline emergency service delivery.

Key components include learning and development programs, procurement, management of information and communications technology, and the provision of effective equipment, vehicles, infrastructure, and plant equipment.

In addition, prevention programs minimise the frequency and effects of fires and other emergencies and include fire cause investigation, safety inspections of public buildings, regulation, community support and education. MFS personnel also provide engineering advice and assistance with the development of cost-effective fire safety systems.

Highlights 2024-25

- Developed new learning and leadership programs including the commander development program and enhanced consistency in training for regional stations.
- Performed market research to understand the social and economic dynamics of South Australia and ran a targeted recruitment campaign for metropolitan and regional firefighters to assist with creating an inclusive MFS. Created a come and try day for future potential recruits to experience and understand the requirements of firefighting.
- Developed and implemented a direct entry framework for Firefighters and Senior Firefighters across Australia to work within the MFS.

Targets 2025-26

- Develop consistent and up-to-date learning programs for metropolitan and regional stations.
- Review recent recruit intakes to deliver a targeted recruitment campaign for metropolitan and regional firefighters to assist with creating an inclusive MFS.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**192**	167	165	211
Expenses	**19 110**	18 730	18 606	21 642

FTEs as at 30 June (No.)	**69.4**	69.4	69.2	71.8

Explanation of significant movements

The decrease in expenses in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to investment in personal protective clothing and equipment and higher costs associated with repairs and maintenance for vehicles and buildings in 2023-24.

Performance indicators

Sub-program 1.3: Governance and Public Value

Description/objective

The objective of this sub-program is to ensure the MFS meets all required standards of corporate governance and that the services provided represent public value to the South Australian community.

Key components of this sub-program include initiatives to improve organisational performance, employee wellbeing and sustainability. The sub-program also includes leadership development and the management of key organisational change projects including workforce and cultural renewal.

Highlights 2024-25

- Commenced negotiations for the enterprise agreement with the objective of creating a flexible, modern and objective workplace.
- Commenced the implementation of a new promotions process from the findings of the promotions review.
- Performed a review of regional stations and staffing models to deliver an enhanced emergency response to regional centres in South Australia.
- Commenced developing flexible working arrangements that create good work life balance, while complying with minimum staffing levels.
- Implemented a tailored performance management framework to enhance accountability and staff satisfaction.

Targets 2025-26

- Continue enterprise agreement negotiations with the objective of creating a flexible, modern and objective workplace.
- Consider recommendations from the regional review to deliver an enhanced emergency response to regional centres in South Australia.
- Continue flexible working arrangements that create good work life balance, while still complying with minimum staffing levels.
- Undertake a review of marine to ensure the MFS services the changing community needs and industrial growth of broader South Australia and the Lefevre Peninsula.

Summary of major variations

Statement of comprehensive income — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries.

Statement of financial position — controlled

Explanation of significant movements

In addition to the variances explained under program summaries, the $14.6 million increase in total assets in the 2025-26 Budget compared to the 2024-25 Estimated Result is primarily due to asset replacement and additional cash to support operations.

Statement of cash flows — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries, the statement of comprehensive income and the statement of financial position.

Objective

To create a safer community by providing a unified strategic direction to the emergency services sector for service delivery, governance and accountability.

Ministerial responsibilities

Minister	Programs	Sub-programs
The Hon. ES Bourke Minister for Emergency Services and Correctional Services	1. Fire and Emergency Services Strategic Services and Business Support	1.1 Emergency Service Support 1.2 Emergency Management

Administered items

In addition to the above responsibilities, the agency administers the following item on behalf of the minister:

- Community Emergency Services Fund.

Statutes

The Department of the Premier and Cabinet maintains a list of statutes applicable to ministers.

Workforce summary

(a) The net cost of services excludes transfers from the Community Emergency Services Fund.

Key agency outputs

- Provide a unified strategic direction for the emergency services sector with the aim of creating a safer community.
- Provide corporate governance direction and business support to the emergency services sector including finance, assets and procurement, human resources, information technology, volunteer services, occupational health, safety and welfare, and injury management services.
- Provide emergency management initiatives across the state as well as administering a range of joint state and Commonwealth Government grant funded initiatives.

Investing expenditure summary

The 2025-26 investing program is $167 000.

Program 1: Fire and Emergency Services Strategic Services and Business Support

Description/objective

The emergency services sector is comprised of the South Australian Fire and Emergency Services Commission (SAFECOM), the South Australian Metropolitan Fire Service (MFS), the South Australian Country Fire Service (CFS) and the South Australian State Emergency Service (SES).

SAFECOM performs the following functions for the sector:

- develops and maintains a strategic and policy framework across the emergency services sector
- develops and maintains a framework of sound corporate governance and business support across the emergency services sector
- ensures that appropriate strategic, administrative and other support services are provided to the emergency services organisations
- develops and implements an emergency management framework for South Australia in the national context.

Sub-programs

1.1 Emergency Service Support

1.2 Emergency Management

Sub-Program 1.1: Emergency Service Support

Description/objective

This sub-program provides functional support to the operational agencies MFS, CFS and SES. This includes risk, human resource management, volunteer services, occupational health, safety, welfare and injury management services, information technology, assets and procurement, and financial management.

Highlights 2024-25

- Implemented a three-year mental health and wellbeing strategy for the emergency services sector.
- Developed a four-year suicide prevention action plan as required by section 25 of the *Suicide Prevention Act 2021*.
- Finalised the children and young people in emergency services organisations project to increase the recruitment and retention of young people in CFS.
- Implemented phase one of the sector wide information technology strategy focused on improving disaster recovery capabilities, cybersecurity resilience and strengthening ICT governance.

Targets 2025-26

- Continue the three-year mental health and wellbeing strategy for the emergency services sector, with a focus on prevention, education and training, early intervention, peer support and research.
- Implement the four-year suicide prevention action plan in accordance with section 25 of the *Suicide Prevention Act 2021*.
- Develop an emergency services volunteer sustainability strategy.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**1 048**	1 025	1 025	1 979
Expenses	**17 836**	18 555	18 380	18 953
Net cost of sub-program	**16 788**	**17 530**	**17 355**	**16 974**
FTEs as at 30 June (No.)	**70.4**	72.4	64.4	70.9

Explanation of significant movements

The decrease in income in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to interest from a higher cash balance in 2023-24 due to timing of receipt of Disaster Ready Fund payments from the Commonwealth Government.

Sub-program 1.2: Emergency Management

Description/objective

This sub-program provides strategic leadership, policy development and emergency services sector and jurisdictional input and advice into state and national emergency management, and administers the National Partnership on Disaster Resilience and Risk Reduction initiatives and associated grants program.

This sub-program also provides functional support for the public information and warning system, Alert SA and State Emergency Information Call Centre Capability (SEICCC).

Highlights 2024-25

- Delivered an enhanced version of the Alert SA application to a multi-hazards public information and warnings platform for the South Australian community.
- Administered round two of the Commonwealth Government's Disaster Ready Fund and the remaining initiatives of the joint state and Commonwealth Government funded Disaster Risk Reduction grants program.
- Developed a climate ready roadmap for the emergency services sector.
- Delivered a final report for the Stronger Together, South Australia's Disaster Resilience Strategy 2019-2024 and commenced a future resilience strategy taking a systems approach.

Targets 2025-26

- Administer round three of the Commonwealth Government's Disaster Ready Fund.
- Develop the next iteration of the state's resilience strategy using a systems approach to guide a coordinated program of work.
- Support the Whyalla Surf Life Saving Club and cafe upgrade project.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**—**	22 416	—	24 337
Expenses	**24 381**	31 626	20 067	14 960
Net cost of sub-program	**24 381**	**9 210**	**20 067**	**-9 377**
FTEs as at 30 June (No.)	**10.0**	13.0	13.0	21.0

Explanation of significant movements

Income in the 2024-25 Estimated Result and 2023-24 Actual is primarily due to receipt of Commonwealth Government payments for rounds two and one of the Disaster Ready Fund.

The movement in expenses across years is primarily due to timing of payments to grant recipients from the joint state and Commonwealth Government's Disaster Risk Reduction program and the Commonwealth Government's Disaster Ready Fund.

Summary of major variations

Statement of comprehensive income — controlled

Explanation of significant movements

Variations to income and expenses are described at the appropriate program level.

Statement of financial position — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries.

Statement of cash flows — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries.

Summary of major variations — administered items

Statement of comprehensive income — administered items

Explanation of significant movements

The $21.3 million increase in expenses in the 2025-26 Budget compared to the 2024-25 Estimated Result is primarily due to Surf Life Saving club redevelopment program carryovers, new measures included in the 2025-26 Budget and growth in base expenditure.

The $13.7 million increase in expenses in the 2024-25 Estimated Result compared to the 2023-24 Actual is primarily due to new measures included in the 2024-25 Budget and growth in base expenditure.

Statement of financial position — administered items

Explanation of significant movements

The $10.5 million decrease in cash and cash equivalents in the 2025-26 Budget compared to the 2024-25 Estimated Result is primarily due to a run down of cash to fund expenditure and Surf Life Saving club redevelopment program carryovers from prior years.

The $7.7 million increase in cash and cash equivalents in the 2024-25 Estimated Result compared to the 2024-25 Budget is primarily due to Surf Life Saving club redevelopment program carryovers and additional fixed property Emergency Services Levy revenue.

Statement of cash flows — administered items

Explanation of significant movements

The movements in cash outflows and inflows are generally consistent with the changes discussed above under the statement of comprehensive income and the statement of financial position.

Objective

The *Fire and Emergency Services Act 2005* provides for the South Australian State Emergency Service (SES) to:

- assist the South Australian Commissioner of Police in dealing with any emergency
- assist the State Coordinator, in accordance with the State Emergency Management Plan, in carrying out prevention, preparedness, response or recovery operations under the *Emergency Management Act 2004*
- assist the Chief Executive within the meaning of the *South Australian Public Health Act 2011*, in accordance with the Public Health Emergency Management Plan, in carrying out prevention, preparedness, response or recovery operations under Part 11 of the Act
- assist the South Australian Metropolitan Fire Service (MFS) and South Australian Country Fire Service (CFS) in dealing with any emergency
- deal with any emergency caused by flood or storm damage, or where there is no other body or person with lawful authority to assume control of operations for dealing with the emergency
- deal with any emergency until such time as any other body or person that has lawful authority to assume control of operations for dealing with the emergency has assumed control
- respond to emergency calls and, where appropriate, provide assistance in any situation of need (whether or not the situation constitutes an emergency)
- undertake rescues.

Total	**24 138**	**23 920**	**23 795**	**25 802**

(a) The net cost of services excludes transfers from the Community Emergency Services Fund.

Key agency outputs

Provide services for:

- storm damage and flood mitigation
- road crash and other rescues
- urban search and rescue
- land, air and evidence search, including drone and canine search capabilities
- marine search and rescue (rivers, lakes and sea)
- basecamp and staging area management
- swift water rescue
- animal rescue
- operational and logistical support to South Australia Police (SAPOL), CFS, and MFS
- vertical rescue of all forms (cliffs, caves and structures)
- structural collapse and confined space search and rescue
- fire support operations
- incident management services
- community education and emergency management activities including planning, training and support to Zone Emergency Management Committees.

Investing expenditure summary

The 2025-26 investment program is $10.5 million.

Program 1: State Emergency Service

Description/objective

SES provides a community-based volunteer emergency service across the state. Provisions under the State Emergency Management Plan, established by the *Emergency Management Act 2004,* confer responsibilities on SES to act as a control agency for emergencies associated with flooding and extreme weather, including heatwave. SES is the Hazard Risk Reduction Leader responsible for ensuring all aspects of the state's approach to the extreme weather hazard are coordinated.

SES currently consists of 68 units located in both rural and urban centres across South Australia and six Community Response Teams (CRTs). The service comprises approximately 1775 volunteers and around 75 employees. SES also provides support for volunteer marine rescue organisations including the 500 operational volunteer marine rescue volunteers who are strategically located along South Australia's coastline.

Highlights 2024-25

- Practical completion of the new Gawler SES Unit.
- Delivered four replacement rescue trucks, three replacement quick response vehicles, five storm response trailers, and two new rescue vessels for SES units.
- Deployed volunteers and staff to support emergency operations in Queensland, Western Australia, Victoria and to the inland river flooding in the north-east of the state.

Targets 2025-26

- Commence construction of the new Prospect SES Unit and co-located Maitland SES Unit with CFS.
- Deliver four replacement trucks, four quick response vehicles, and a new rescue vessel for Streaky Bay.
- Enter new partnership with NRMA Insurance to deliver community engagement to support extreme weather preparedness and community engagement programs.
- Commence replacement program for remotely piloted aircraft (drones) to enhance operational capability.

Program summary — income, expenses and FTEs

Objective

The Department for Energy and Mining (DEM) role is to facilitate economic development by fostering responsible access to, and development of, the state's mineral and energy resources. These activities create jobs, attract investment and increase exports.

In 2025-26, DEM's efforts in mining will focus on securing the future of the state's steel industry, including the identification of pathways to producing green iron and steel. DEM will also accelerate its work to unleash the state's potential as a world-leading copper jurisdiction. At the same time, DEM will continue to build South Australia's reputation as a great place for mining and exploration. We will achieve that through tangible actions that ensure our state has a peerless regulatory and competitive environment; one that supports sustainable mining exploration and operations, and where the pre-competitive data we produce and openly share with explorers and investors remains among the world's best.

In energy we will continue to lead the nation in innovative policy approaches to generation, demand management, storage, transmission and distribution. We will also continue our work to ensure South Australian energy consumers are empowered, by facilitating both their knowledge and their access to cutting-edge technologies in the home and in their neighbourhoods. Further, nurturing our existing capabilities in energy forecasting will yield vital intelligence and foresight that will help South Australia navigate uncertainties in the fast-moving energy sector.

Throughout 2025-26, DEM will continue to deliver a cohesive and strategic approach to energy and mining that ensures South Australia's economy remains well placed to harness the international trends that are emerging from a changing world. DEM actively partners with stakeholders to ensure we create growth and opportunity for South Australia together.

Ministerial responsibilities

Key agency outputs

Implement key projects that support the transformation of the South Australian economy to generate growth and opportunity.

- Support the effort of the Commonwealth and Government of South Australia to transition the Whyalla steelworks to new ownership, and to position the state to meet future demand for green iron and steel.
- Continue to facilitate an investment environment conducive to significant private investments that will optimise public benefits from South Australia's abundant copper resources.
- Encourage exploration for, and development of, new gas to support industry in South Australia and support infrastructure that enables this gas to be supplied where and when needed.
- Develop energy and mining policy that advances South Australia's excellence and global standing in these critical areas.
- Deliver and enforce effective, efficient, transparent regulation using a one-window approach to co-regulation, and provide commercially focused case management and support for major projects.
- Adopt a Regulatory Practice Statement that sets out the DEM's approach to regulating the mining and energy sectors in South Australia, encompassing minerals mining, petroleum, gas and hydrogen, renewable energy generation and storage, as well as the Office of the Technical Regulator.
- Provide a regulatory approach that minimises gas, electrical or plumbing accidents and equipment failures.

Progress innovative programs that unlock development opportunities that support job creation, economic growth and empower energy consumers to enable South Australians to benefit from the state's economic transformation.

- Maintain, expand and promote South Australia's excellence in pre-competitive geoscience delivery with a particular focus on the geological potential of the Gawler Craton, the generation of new energy geoscience prospectivity models and opportunities arising from providing digitised information from physical core samples and the application of artificial intelligence.
- Provide more opportunities for consumers to take control of their energy usage and reduce their electricity bills through access to consumer energy resources including battery energy storage systems and smart appliances.
- Encourage large load growth, such as data centres, to locate in underutilised parts of the electricity network to provide broader benefits to electricity customers.

Provide systems and processes that support an efficient and effective service. Undertake genuine engagement with internal and external stakeholders to contribute to the overall wellbeing of the South Australian community.

- Deliver digital tools and innovation to improve service, responsiveness and productivity.
- Underpin the department's step change in engaging with Aboriginal groups, local communities and industry in energy and mining projects and new approaches to digital engagement.
- Enhance our royalty framework to align with major legislative changes.

Investing expenditure summary

The 2025-26 investment program is $91.2 million, including new funding to design and construct renewable generation upgrades to the Remote Area Energy Supply (RAES) power stations at Pipalyatjara, Yalata and Oak Valley, to provide direct energy cost benefits to households through the deployment of a fleet of community-scale batteries, and to continue to reduce public safety risk at the Leigh Creek Coalfield site through the management of legacy environmental challenges.

DEM has taken responsibility for the commercial management of the Northern Water Supply project, which is intended to deliver reliable, climate independent water to enable major industrial development and decarbonisation in the Far North. The total costs required to fund the project from the business case submission through to a Final Investment Decision (FID) are approximately $220.3 million.

(a) These projects have received grant funding from the Australian Renewable Energy Agency (ARENA) as part of ARENA's Community Batteries for Household Solar Initiative and Regional Microgrids program.

(b) Reflects the pre-delivery and procurement aspects of the project managed by the Department for Infrastructure and Transport and by Department of the Premier and Cabinet in 2023-24. The Northern Water feasibility assessment is being jointly funded between the Commonwealth and State governments and industry.

(c) Reflects the commercial aspects of the project that is managed by DEM.

(d) Oversee the divestment of hydrogen enabled gas turbines acquired as part of the now deferred Hydrogen Jobs Plan.

Program 1: Water Industry Technical and Safety Regulation

Description/objective

Enforcement, compliance, and promotion of technical and safety regulation of plumbing and equipment and water industry entities to ensure low levels of incidents and failures.

Highlights 2024-25

- Built reporting capacity and capability of water entities with less than 10 000 connections that commenced National Performance Reporting from 1 July 2024.
- Built capacity of data analysis and integration between data sets.
- Continued engagement with TAFE SA and Plumbing Electrical Electronic and Refrigeration (PEER) with simulated Sanitary Plumbing and Drainage audits for plumbing apprentices.
- Enhanced case management digitalisation of the Plumbing Investigation Sheet File process.
- Continued to provide and update Plumbing Advisory Notes available on the DEM website for public and industry access.

Targets 2025-26

- Establish the Statewide Water Information Management (SWIM) reporting portal, providing training to industry stakeholders and reducing duplication of reporting requirements between state and Commonwealth Government agencies.
- Engage with water industry entities and other relevant agencies to establish training needs, improve industry and public reporting, plumbing licence and registration processes.
- Improve internal regulatory processes that prioritise transparency, independence, and efficiency, ensuring all plumbing investigations align with the *Water Industry Act 2012* and the Technical Regulator's mandate to uphold compliance, safety and technical standards.
- Reduce non-compliance among plumbers who fail or refuse to certify and lodge electronic Certificates of Compliance (eCoCs) by implementing targeted enforcement actions, including audits, penalties and education programs, to ensure 100 per cent adherence to regulatory requirements under the *Water Industry Act 2012.*

No major variations.

Activity indicators

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual
No. of safety presentations to key stakeholders *Some of the presentations provided by the Office of the Technical Regulator are in collaboration with industry training bodies as part of the training for apprentices or are as a refresher course for licensed trade personnel.*	**24**	24	35	16
No. of proactive technical and safety audits of on-site plumbing *Technical and safety audits are carried out on a sample of new plumbing installations to protect public health, the integrity of onsite plumbing within properties and to additionally protect the state's water and sewerage infrastructure.* *Note: decline is due to lower number of auditors we have available in the plumbing section.*	**2 500**	6 232	6 700	6 480
No. of proactive technical and safety audits of water industry entities operating water and sewerage infrastructure *Note: There are 67 water industry entities in South Australia who provide sewerage and/or water services. We aim to audit each once every five years at a minimum.*	**12**	12	12	10

Program 2: Energy and Mining

Description/objective

Responsibly regulate, manage and support the development of South Australia's mineral, petroleum and renewable energy assets.

Provide policy development, advocacy and advice to continually improve productivity, efficiency and environmental and social responsibility across the mining and energy sectors.

Provide overall strategic leadership of the transformation of the Whyalla steelworks and broader transition of the region's economic future, and facilitate the expansion of copper mining and processing in South Australia.

Sub-programs

2.1 Regulation and Compliance

2.2 Policy and Programs

2.3 Industry Development

Subprogram 2.1: Regulation and Compliance

Description/objective

Manage the state's mineral, petroleum, hydrogen, geothermal and gas storage assets through responsible, sustainable, effective, and efficient regulation, including a trusted compliance framework for royalty collection.

Deliver key energy resource initiatives that maintain supply, put downward pressure on domestic prices and aid the global transition to clean energy sources.

Monitor and regulate the safety and technical standards for electrical, gas and plumbing installations, as well as electricity, gas, water and sewerage network infrastructure to ensure low levels of accidents and failures and monitor and manage energy related emergency events.

Contribute to the review and development of enhanced national safety and technical standards and the implementation of improved electronic systems to increase the effectiveness of the regulatory framework to deliver better outcomes for the community of South Australia.

Highlights 2024-25

- Secured approval for the Moomba Carbon Capture and Storage project.
- Increased safety awareness to all stakeholders involved in electrical and gas installations, to maintain a low level of incidents and fatalities.
- Further developed the functionality of the department's electronic auditing system for gas installations to streamline data management.
- Represented and proactively engaged on a national level regarding the development of new and existing Australian standards and participated in national regulatory forums to share and gain regulatory knowledge and experience.
- Enrolled the first cohort of 25 regulatory staff to the nationally recognised Professional Regulator Training Program, co-ordinated by the Australia and New Zealand School of Government (ANZSOG).
- Provided regulatory support on the integration of BHP and OZ Minerals assets.
- Endorsed and published the Final Scoping Report and Terms of Reference for the Hawks Nest Magnetite Project which was the first Scoping Report endorsed under the *Mining Act 1971*.
- Undertook public consultation on proposed hydrogen and renewable energy release areas and prepared the tender guidance documents.

Targets 2025-26

- Publish and implement the department's Regulatory Practice Statement.
- Conduct the first release area process under the *Hydrogen and Renewable Energy Act* 2023 and grant the first Renewable Energy Feasibility Licences (REFLs).
- Continue to implement the Mining and Energy Regulation System (MERS), enabling highly automated regulatory processes and data and analytic capabilities, providing stakeholders with improved online regulatory services.
- Continue social licence research and development of regulatory engagement plans to build trust in the department as an effective regulator.
- Initiate a department led amendment to the planning and design code which, once executed, will apply the resource extraction protection area overlay to the greater metropolitan strategic resource areas (e.g. quarries).

- Develop and publish the 2025 Electricity Development Plan and provide South Australian industry and stakeholders with a consolidated state-specific electricity demand forecast.
- Finalise the Memorandum of Understanding with the South Australian Police and the Office of the Technical Regulator (OTR) to improve electrical safety knowledge, including in relation to the charging lithium-ion batteries.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual

No. of proactive technical and safety audits	**4 000**	2 640	2 490	4 284

Subprogram 2.2: Policy and Programs

Description/objective

Deliver initiatives to accelerate the responsible growth of the state's energy and mining sectors and capitalise on the benefits to the South Australian economy and community from our resources.

Provide comprehensive, high-quality data, analytics, and advice to support decision-making and investment in the energy and mining sectors and expand our knowledge of the state's resources and opportunities.

Provide coherent, meaningful, and timely advice and policy on issues of strategic priority for the state, relating to the energy and mining sector.

Deliver the government's major projects and initiatives that contribute to objectives including growth and low carbon transition of the energy and mining sectors and create growth and opportunities for our community.

Deliver effective engagement with all stakeholders to increase transparency and inform the development of new policies, programs and initiatives, including with First Nations peoples and traditional owner groups on matters that affect them.

Deliver programs to educate and empower our consumers and communities to ensure all South Australians feel the benefits from energy and mining sector activity.

Highlights 2024-25

- Constructed a solar hybrid power station at Oodnadatta that will provide up to 75 per cent renewable energy, improving energy stability for the remote township while significantly decreasing diesel consumption.
- Supported the parliamentary passage of key national reforms to improve data access and sharing among national energy market participants and provide for the orderly exit of retiring fossil fuel generators.
- Completed construction of two 150kW/405kWh community-scale battery energy storage assets that directly benefited low income and vulnerable South Australian households and secured additional Commonwealth Government funding to expand the emPowering SA initiative through the Commonwealth Government's Community Batteries for Household Solar Initiative.
- Launched the Energy Masters initiative in partnership with SA Power Networks to investigate residential electricity demand flexibility that benefits households, industry and the grid.
- Completed Phase 2 Mineral Exploration Cooperative Research Centre National Drilling Initiative campaign in the Northern Gawler Region.
- Completed construction of the statewide electric vehicle charging network with over 5330 EV charging points across 140 sites in 52 locations throughout metropolitan, regional and rural South Australia.

Targets 2025-26

- Expand digital mapping across the Gawler Craton to facilitate increased copper production in South Australia.
- Develop policy and programs, including an acreage release, to contribute to the provision of gas needed to support the energy system transition and economic growth.
- Commence the operation of the Firm Energy Reliability Mechanism, underpinned by forecasting and planning analysis, to support the provision of sufficient long-duration firm capacity that ensures secure, reliable and resilient electricity supply for South Australia, at least-cost to consumers.
- Provide direct energy cost benefits to households, including those that are low income and vulnerable, through the deployment of a fleet of community-scale batteries and supporting households to install a home energy management system and energy-smart appliances.
- Begin design and construction of renewable generation upgrades to the Remote Area Energy Supply (RAES) power stations at Pipalyatjara, Yalata and Oak Valley. This project, which has received funding from the Australian Renewable Energy Agency's Regional Microgrid Program, will significantly reduce diesel consumption, the benefits of which will be shared with community members through capped household electricity tariffs.
- Release the South Australian Discovery Mapping (SADM) Project, a modern data management and capture system, containing new geological mapping data and associated digital explanatory notes from across the state with a special focus on the Gawler Craton.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**31 504**	23 335	20 208	25 168
Expenses	**62 130**	83 304	71 625	76 518
Net cost of providing services	**30 626**	**59 969**	**51 417**	**51 350**
FTEs as at 30 June (No.)	**159.1**	166.5	146.7	135.1

Explanation of significant movements

The increase in income between the 2025-26 Budget and the 2024-25 Estimated Result is primarily due to project timelines for the emPowering SA Community Battery Project.

The decrease in expenses between the 2025-26 Budget and the 2024-25 Estimated Result is primarily due to the expenditure profile of Mintabie Township Remediation Works, along with projects nearing completion including the Grid Scale Storage Fund (Virtual Power Plant), the Grid Scale Storage Fund (Hornsdale Expansion), the National Energy Crisis response, the Electric Vehicle Action Plan, the Energy Storage Acquisition and Deployment and the Demand Management Trials. The decrease in expenses between years also reflects fluctuations in diesel fuel prices under the Remote Area Energy Supply Scheme.

The increase in income between the 2024-25 Estimated Result and the 2024-25 Budget is predominantly due to the commencement of the emPowering SA Community Battery Project.

The increase in expenses between the 2024-25 Estimated Result and the 2024-25 Budget is primarily due to revised expenditure profiles for time-limited projects, including the Mintabie Township Remediation Works, the Energy Masters project, the Electric Vehicle Action Plan, and the Demand Management Trials. It also reflects annual variations in diesel fuel prices under the Remote Area Energy Supply Scheme.

The decrease in income between the 2024-25 Estimated Result and the 2023-24 Actual is primarily due to Commonwealth Government funding received for the Mintabie Township Remediation Works in 2023-24.

The increase in expenses between the 2024-25 Estimated Result and the 2023-24 Actual is primarily due to the expenditure profiles of time-limited projects, including the Mintabie Township Remediation Works and Energy Masters project, which is partly offset by reduction in Demand Management Trials.

Performance indicators

South Australia's global ranking in the Policy Perception Index within the Fraser Institute annual survey	**Top quartile**	Top quartile	Top quartile	n.a.

Subprogram 2.3: Industry Development

Description/objective

Provide whole of government strategic leadership to deliver a co-ordinated response to the Whyalla steelworks administration and broader transformation of Whyalla's industrial and economic future.

Play a pivotal role in ensuring that government-led projects, community engagement, and industrial development initiatives in Whyalla are integrated and strategically delivered.

Facilitate the expansion of the copper industry in South Australia by working with industry to investigate the opportunities for climate-independent water to enable major industrial development and decarbonisation in the Far North.

Highlights 2024-25

- Undertook the Green Iron Expression of Interest, a State Prosperity Project Green Iron Opportunity initiative, that secured active participation from over 100 national and international companies and 52 registrations of interest to explore opportunities to establish a multibillion-dollar green iron supply chain in South Australia by 2030.
- Continued detailed project design and development activities to support delivery of the Hydrogen Jobs Plan, including infrastructure arrangements until project deferral.
- Secured more than $140 million from non-state funding sources to support early development of the Northern Water Supply project, signalling strong interest in the project.
- Worked with project partners to progress the Port Bonython Hydrogen Hub Masterplan and associated common user infrastructure studies.
- Engaged with key agencies in relation to the development of South Australia's Hydrogen Export Strategy, as part of the State Prosperity Project.
- Worked closely with Upper Spencer Gulf communities, including Traditional Owners, to build awareness in relation to hydrogen and to ensure that future local hydrogen projects and initiatives are delivered in a way that is consistent with community expectations.

Targets 2025-26

- Support the sale of the Whyalla steelworks to a new owner and work with them to invest in the upgrades and new infrastructure to transform the operations for a sustainable, long-term future.
- Continue to facilitate growth in the State's copper industry by supporting BHP's proposal to double its copper production in South Australia.
- Secure executed offtake arrangements with BHP and other foundation customers for the Northern Water Project.
- Reach final investment decision (FID) for the Northern Water Supply project by mid-2026 including all environmental, native title, and regulatory approvals.
- Complete the divestment of the hydrogen-capable gas turbines to provide additional capacity into the South Australian energy market, improving energy reliability.
- Develop a business case and commence construction of the Port Bonython Hydrogen Hub jetty expansion.
- Finalise the Port Bonython Hydrogen Hub Masterplan and associated common user infrastructure studies.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**62 438**	67 805	82 640	54 271
Expenses	**10 284**	37 499	23 048	17 812
Net cost of providing services	**-52 154**	**-30 306**	**-59 592**	**-36 459**
FTEs as at 30 June (No.)	**20.1**	60.1	55.0	46.9

Explanation of significant movements

The movements in income between 2023-24 Actual, 2024-25 Budget and Estimated Result, and 2025-26 Budget primarily reflect the timing of contributions under the Commonwealth-State funding agreement for the Port Bonython Hydrogen Hub.

The movements in expenditure between 2023-24 Actual, 2024-25 Budget and Estimated Result, and 2025-26 Budget primarily reflect the timing of works on the Port Bonython Hydrogen Hub.

Objective

The Department for Environment and Water (DEW) works to help South Australians conserve, sustain and prosper. DEW's management of natural resources and places, water and heritage assets is vital for the future of all South Australians, to underpin their social, environmental and economic prosperity and wellbeing. In partnership with a diverse cohort of boards, councils, stakeholders and volunteers, DEW delivers and implements policies and programs through three complementary goals:

A healthy, resilient environment to ensure:

- South Australia's natural environment is valued and prioritised
- Declines in biodiversity are reversed and ecosystems are adaptive to climate change and the state's landscapes and aquatic environments are sustainably managed
- A comprehensive, adequate and representative network of marine and terrestrial protected areas, across public and private ownership, is in place.

Improved liveability and wellbeing in South Australia by:

- Making communities safer through increased preparedness and effective response to bushfires and floods
- Enhancing connection to Country and waters for First Nations Australians
- Ensuring State Heritage and botanic gardens are protected and activated
- Ensuring communities have access to fit-for-purpose water supplies
- Managing Adelaide's beaches to protect coastal infrastructure and the environment for the enjoyment of all
- Improving health and wellbeing through an increased connection with nature.

Supporting a prosperous South Australia for current and future generations by:

- Ensuring South Australia's green economic credentials are respected globally
- Securing water supplies to support sustainable economic growth
- Positioning South Australia as a destination of choice for nature-based travellers
- Ensuring regulatory processes are transparent and streamlined, and provide certainty
- Making cities and towns greener and climate resilient, which enhances liveability and sustainable population growth.

Ministerial responsibilities

Minister	Programs		Sub-programs
The Hon. Dr SE Close Minister for Climate, Environment and Water	1.	National Parks and Wildlife	Nil
	2.	Water and the River Murray	Nil
	3.	Environment, Heritage and Sustainability	Nil

Administered items

In addition to the above responsibilities, the department administers the following items on behalf of the minister:

- Appropriation transfers to various authorities
- Consumer Advocacy and Research Fund
- Landscape Administration Fund
- Landscape Priorities Fund
- Pastoral Land Management Fund
- Qualco Sunlands Ground Water Control Trust
- South Australian Drought Resilience Fund
- South Australian River Murray Improvement and Water Security Fund
- Surplus Land and Property Sales Account

Statutes

The Department of the Premier and Cabinet maintains a list of statutes applicable to ministers.

	$000	$000	$000	$000
Program				
1. National Parks and Wildlife	**94 626**	101 360	93 696	86 909
2. Water and the River Murray	**37 430**	42 832	29 767	37 945
3. Environment, Heritage and Sustainability	**58 203**	83 709	62 794	45 512
Total	**190 259**	**227 901**	**186 257**	**170 366**

Key agency outputs

Program 1: National Parks and Wildlife

- Leads the development and delivery of nature conservation, biodiversity and animal welfare policy and programs for government, including but not limited to protection and recovery of key threatened species and wildlife recovery activities from bushfire and flood events.
- Manages and conserves South Australia's parks and protected areas (which supports the community's health and wellbeing).
- Manages and reduces fire risk on land for which the Minister is responsible (primarily but not exclusively within parks, covering approximately 21 per cent of the state's land area) and coordinates the Burning on Private Lands Program, which conducts strategic hazard reduction burning on privately held properties.
- Supports volunteer programs to make a positive contribution to conservation and park management through the department's Friends of Parks Program, Volunteer Rangers Program and Campground Host Program.
- Administers South Australia's Crown land estate.
- Contributes to the economy through promoting strategic nature-based tourism initiatives and managing iconic South Australian visitor sites such as Cleland Wildlife Park, Seal Bay, Naracoorte Caves, Flinders Ranges and Kangaroo Island parks.

Program 2: Water and the River Murray

- Identifies and addresses the state's current and future water security priorities and secures sustainable water supplies to encourage economic growth, support a vibrant and healthy society and protect and enhance water dependent ecosystems.
- Enhances urban water resource management.
- Leads South Australia's participation in water related intergovernmental negotiations, policy development and program delivery, including for the Murray-Darling Basin.
- Delivers the state's Murray-Darling Basin Plan commitments.
- Manages water for the environment to support a healthier, productive and more resilient River Murray system.

- Progresses development of Aboriginal water policy and provision of cultural water.
- Coordinates flood preparedness across South Australia.
- Undertakes water regulation and compliance and supports the operation of water markets.
- Constructs, maintains and operates water related infrastructure.
- Plans water management with the community.

Program 3: Environment, Heritage and Sustainability

- Develops and leads delivery of government climate change policy and programs, including coordinating cross agency climate change strategies and initiatives.
- Works with the Coast Protection Board, Native Vegetation Council, Pastoral Board and the Dog and Cat Management Board to support delivery of their legislative mandates, as well as coordinating the department's input into planning policy and assessment of state significant developments.
- Works with private landholders and pastoral lease holders to support them to care for their land, including to conserve native vegetation and habitats.
- Manages the metropolitan coastline (in partnership with local councils) and supports protection measures for South Australia's coasts.
- Supports South Australia's Botanic Gardens and State Herbarium to cultivate, create and maintain beautiful public gardens and landscapes and the living collections, to undertake research that advances understanding of plants and supports ecosystem conservation and to share its collections and knowledge with local, national and global networks.
- Drives heritage protection and conservation in South Australia by supporting the South Australian Heritage Council, engaging with the private sector and by investing in government owned heritage assets for conservation and restoration.
- Supports landscape boards to deliver a vision for managing South Australian regional landscapes and partners with the Green Adelaide Board to improve the sustainability of metropolitan and coastal habitats.

Investing expenditure summary

The 2025-26 investment program is $71.1 million, including new funding for Stage 2 of the Constraints Measure program to build on the River Murray operating environment policy changes and provide additional environmental and community benefits through on-ground works. The investing program also includes additional funding to enhance the quality and availability of wetland habitats through a range of on-ground works to improve flow connectivity and water management capabilities at priority wetland sites.

The investing program also provides continued funding for other water and River Murray programs including Healthy Coorong, Healthy Basin, Sustaining Riverland Environments and Flows for the Future.

There is also further investment in National Parks in 2025-26, with funding provided to support the completion of Parks 2025 and various projects on Kangaroo Island.

Program 1: National Parks and Wildlife

Description/objective

The sustainable, proactive conservation and management of South Australia's natural places, parks and wildlife ensures the environmental, social and economic prosperity of the state.

Highlights 2024-25

- Drafted and consulted on the Biodiversity Bill 2025, which was introduced into Parliament in May 2025.
- Supported the passage of the *Animal Welfare Act 2025* through Parliament which has modernised animal welfare laws, in line with community expectations.
- Commenced preparation of contemporary and accurate threatened species listings, including a technical review of the status of over 1 100 species currently listed under *the National Parks Act 1972*.
- Launched the ReBird the Ranges Action Plan to commence reconstruction of an additional 14 000 ha of heathland and an additional 120 000 ha of grassy woodlands and grasslands to help return threatened bird species to the Mount Lofty Ranges.
- Completed recruitment of 15 new Aboriginal rangers.
- Consolidated Nilpena Ediacara National Park in support of the World Heritage Listing of the Flinders Ranges through the acquisition of Nilpena Homestead. The acquisition will also improve the protection of local habitats and ecological communities, while also improving accessibility and connectivity throughout the National Park.

Targets 2025-26

- Submit the World Heritage Listing for the Flinders Ranges to the Commonwealth Government.
- Complete parks infrastructure projects including the Cape Willoughby Visitor Centre and upgrades within Belair National Park (the first stage of the playground redevelopment and the second stage of Playford Lake upgrades).
- Develop a licensing model for animal shelters and rescue organisations.
- Deliver additional support to the wildlife rescue and rehabilitation sector through additional engagement with volunteers, increased veterinary care funding, policy reform and improved sector standards.
- Continue investment in on-ground activity to prevent biodiversity loss including the Bounceback program and transforming Flinders Island into a safe haven for nationally threatened species.

Explanation of significant movements

The increase in income from the 2024-25 Budget to the 2024-25 Estimated Result is primarily due to a once-off contribution from the Adelaide University towards the Kangaroo Island Flinders Chase Visitor Centre ($2.0 million), higher Commonwealth Government revenue for the Bioregional Planning Pilot program ($2.0 million), increased park revenue ($1.9 million) and the Flinders Island Safe Haven project ($1.6 million).

The increase in expenses from the 2024-25 Budget to the 2024-25 Estimated Result is primarily due to higher expenditure on the Parks 2025 program ($2.5 million), the Bioregional Planning Pilot program ($1.7 million), Kangaroo Island Recovery works ($1.6 million) and the Flinders Island Safe Haven project ($1.0 million).

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
Park revenue *Includes the sale of goods, admissions, entry fees, park passes, guided tours, commercial operators, camping, accommodation and other activities.*	**$20.07m**	$19.10m	$17.20m	$19.7m
Commercial revenue *Revenue items include Adelaide Gaol, Mapland and State Flora.*	**$2.67m**	$2.79m	$2.03m	$2.90m
Park visitation *Percentage of the population visiting parks.*	**74%**	74%	75%	74%
Number of firefighters in National Parks and Wildlife Service fire brigade *Represents the participation of DEW and landscape board staff as firefighters in the DEW brigade. Minor fluctuations do not materially impact program delivery.*	**380**	372	380	375
Percentage of DEW managed land with a high fire risk covered by fire management plans *Several new fire management plans are in development and scheduled for completion in 2025-26.*	**65%**	58%	58%	58%
Number of park ranger positions	**160**	161	162	157
Prescribed burns planned and completed (number and hectares) *Figures include burns completed by DEW on Crown land managed by DEW and on behalf of SA Water, ForestrySA in the Limestone Coast region, local councils, and private landowners.*	**100 burns** **6 000 ha**	70 burns 6 000 ha	100 burns 6 000 ha	90 burns 8 335 ha

Activity indicators

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual
Visitor numbers for key visitor sites *Key sites include Cleland Wildlife Park, Naracoorte Caves and Seal Bay Conservation Park.*	**390 000**	381 500	399 910	396 714
Number of bookings made via the online booking systems *(Bookeasy and Rezdy).*	**192 150**	194 771	229 000	200 318
Value of Crown lands disposals	**$6.375m**	$5.046m	$5.046m	$3.712m

Program 2: Water and the River Murray

Description/objective

Water is managed sustainably for the benefit of the community, environment and economy.

Highlights 2024-25

- Updated River Murray flood models to enable a new set of inundation maps to be developed for future flood event preparation and continued the repair and remediation of flood impacted infrastructure along the River Murray.
- Worked with other agencies and industry partners on key urban and regional water security projects, including those requiring support to apply for National Water Grid (and other Commonwealth Government) funding.
- Under the Closing the Gap Inland Waters Target, commenced work with First Nations to co-design a state policy approach to advancing First Nations' water interests.
- In partnership with other jurisdictions, continued work on a draft National Water Agreement (to replace the *National Water Initiative 2004*).
- Progressed infrastructure works at Lake Hawdon North, Teringie and Tolderol wetlands (under the Healthy Coorong, Healthy Basin Program) to improve the availability and quality of waterbird habitat for target waterbird species that inhabit the Coorong.
- In response to unprecedented dry conditions and unmet water carting demands, established emergency bulk water collection points in the Hills and Fleurieu region and worked with the industry to increase delivery truck capacity.

Targets 2025-26

- Develop inundation maps, complete installation of upgraded and new monitoring stations for future flood event preparation and continue the repair and remediation of flood impacted infrastructure along the River Murray.
- Continue to drive the delivery of the Murray-Darling Basin Plan in full.
- Finalise the upgrade of the Patawalonga South Gates.
- Deliver works at Bookmark Creek (under the Sustaining Riverland Environments Program) to improve environmental outcomes along the South Australian River Murray.
- Deliver National Water Grid funded projects, including to enhance our knowledge of water security for the Elliston district on Eyre Peninsula and to determine the change in resource capacity of surface and groundwater resources across the state, particularly since the Millenium Drought.
- Partner with relevant landscape boards on updates to Water Allocation Plans including those for the Barossa Prescribed Water Resources Area, Baroota Prescribed Water Resources Area, Western Mount Lofty Ranges Prescribed Water Resources Area, Eastern Mount Lofty Ranges Water Resources Area, Lower Limestone Coast Prescribed Wells Area and the Southern Basins and Musgrave Prescribed Wells Areas.

FTEs as at 30 June (No.)	**312.8**	322.3	281.9	306.9

Explanation of significant movements

The increase in income from the 2024-25 Budget to the 2024-25 Estimated Result is primarily due to higher revenue for Commonwealth Government funded projects, including the River Murray in South Australia Constraints Measures project ($16.2 million), National Water Grid Fund initiatives ($5.6 million), South Australian Alternative Water Supply Efficiency Measures Program ($5.5 million), Healthy Coorong, Healthy Basin Program ($3.8 million), Flows for the Future Program ($3.4 million), insurance revenue for River Murray flood asset reinstatement works ($3.4 million) and the Wetland Habitat Project ($3.0 million).

The decrease in income from the 2024-25 Estimated Result to the 2025-26 Budget is primarily due to insurance revenue budgeted in 2024-25 for River Murray flood asset reinstatement works.

The increase in expenses from the 2024-25 Budget to the 2024-25 Estimated Result is primarily due to a reclassification of expenditure from investing to operating for the Lower Murray Reclaimed Irrigation Area Remediation and Betterment Program ($14.4 million) and higher expenditure on Commonwealth Government funded projects including the River Murray in South Australia Constraints Measures project ($13.4 million), National Water Grid Fund initiatives ($5.8 million), South Australian Alternative Water Supply Efficiency Measures Program ($5.5 million) and Healthy Coorong, Healthy Basin Program ($3.6 million).

The decrease in expenses from the 2024-25 Estimated Result to the 2025-26 Budget is primarily due to higher expenditure on the Lower Murray Reclaimed Irrigation Area Remediation and Betterment Program ($5.3 million) in 2024-25.

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
Volume of water stored within River Murray storages for critical human water needs *In late 2022, above average rainfall led to pre-releases and spills from Dartmouth Dam resulting in all held water being released. No deferrals could be undertaken for the remainder of 2022-23 due to unregulated flows continuing.* *Deferrals commenced again in November 2023, however, the return to unregulated conditions in January and February 2024 resulted in the spilling of all previously stored water from Lake Victoria.*	**306 GL**	149.5 GL	123 GL	0 GL
Compliance with water allocations *End of water accounting and compliance processes still underway for 2023-24.*	**95%**	99%	95%	99%
Compliance with the Murray-Darling Basin Compliance Compact (number of actions completed or determined as adequately progressed)	**100%**	100%	100%	100%
Compliance with service standards for SA Murray-Darling Basin (River Murray (RM)) trades (interstate and intrastate)	**90%**	90%	90%	95%
Compliance with customer standards for processing of well construction permit applications *The lower percentage for 2023-24 is due to constraints associated with processing applications during the transition to mywater. This is expected to continue in 2024-25 as the mywater transition nears completion.*	**90%**	80%	90%	78.5%

Activity indicators

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual
Water Resource Monitoring *The number of water resource monitoring stations currently being monitored by DEW in South Australia at least annually for water level and/or salinity and/or meteorology:*				
• Groundwater	**3 350**	3 331	3 347	3 331
• Surface water	**245**	231	304	231
Area of floodplain within South Australian Murray-Darling Basin able to be inundated through active management of infrastructure and environmental water *The 2024-25 Projection is subject to all infrastructure being operational following post flood repairs being complete.* *Note: following a period of active management of infrastructure to inundated parts of the floodplain in 2022-23, the entire floodplain was naturally inundated as part of the flood event.*	**11 371 ha**	11 371 ha	11 371 ha	11 371 ha

Program 3: Environment, Heritage and Sustainability

Description/objective

Develop and deliver strategies, policies and projects that protect and conserve the state's environment and heritage and support sustainable development, in partnership with key bodies, in the face of a changing climate.

Highlights 2024-25

- Adelaide Botanic Garden hosted the ground-breaking Chihuly glass sculpture exhibition that attracted 1.4 million visitors, making it the most visited Chihuly exhibition in a botanic garden anywhere in the world. These figures included approximately 338 000 visitors from outside South Australia and 200 000 people who paid for a ticketed experience.
- Amended the *Climate Change and Greenhouse Emissions Reduction Act 2007* to support the achievement of emissions reduction targets, support adaptation and build a climate smart economy.
- Generated Australia's first-ever biodiversity maps for renewable energy zones, analysing more than 61 million species records, which will directly influence South Australia's renewable energy strategy and delivery of net zero goals.
- Introduced amendments to the *Dog and Cat Management Act 1995* to Parliament to ensure that a ban on puppy farming is enshrined in legislation.
- Introduced the Statutes Amendment (Heritage) Bill 2025 to Parliament to improve protections for state heritage sites.
- Launched the Urban Greening Strategy for Greater Adelaide.

Targets 2025-26

- Support the commencement of implementing South Australia's Net Zero and Climate Ready Government strategies.
- Progress the development of a contemporary South Australian Heritage Register.
- Implement sand management activities along the Adelaide metropolitan coastline to maintain the amenity of these beaches.
- Increase monitoring and compliance to effectively identify and respond to reports of unauthorised clearance of native vegetation.
- Progress the statewide Flood Information Management Project to update flood awareness tools for the South Australian public.
- Implement the Urban Greening Strategy for Adelaide to grow the metropolitan tree canopy, cool local neighbourhoods and boost urban biodiversity.

Program summary — income, expenses and FTEs

Explanation of significant movements

The increase in expenses from the 2023-24 Actual to the 2024-25 Estimated Result primarily relates to higher expenditure on the initial implementation of the Adelaide Beach Management Review and replenishment of sand at West Beach and other Adelaide coastal areas in 2024-25 ($17.2 million) and grant funding for restoration and donation of Ayers House to the National Trust of South Australia in 2024-25 ($13.2 million).

The decrease in expenses from the 2024-25 Estimated Result to the 2025-26 Budget primarily relates to grant funding for restoration and donation of Ayers House to the National Trust of South Australia in 2024-25 ($13.2 million) and higher expenditure on the initial implementation of the Adelaide Beach Management Review and replenishment of sand at West Beach and other Adelaide coastal areas in 2024-25 ($9.5 million).

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
Percentage of heritage development applications processed within statutory timeframes *This measure reflects the development applications processed that were not coastal development, River Murray and native vegetation.*	**100%**	84%	100%	88%
Percentage of coastal development applications processed within statutory timeframes *This measure reflects DEW performance in supporting the Coast Protection Board.*	**100%**	95%	100%	95%
Percentage of native vegetation clearance applications processed within agreed timeframes	**100%**	100%	100%	100%

Summary of major variations

Statement of comprehensive income — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries.

Statement of financial position — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries.

Statement of cash flows — controlled

Explanation of significant movements

All movements are consistent with those described under program summaries.

Summary of major variations — administered items

Statement of comprehensive income — administered items

Explanation of significant movements

Income

The increase in income from the 2023-24 Actual to the 2024-25 Estimated Result is primarily due to:

- a budget provision for the eight regional landscape boards and Green Adelaide to access working capital not being required in 2023-24 ($9.3 million)
- increased water and inside council area land-based levies primarily due to CPI increases ($4.5 million).

partially offset by:

- the recognition of the state's 26.67 per cent share in Murray-Darling Basin Authority joint venture operations in 2023-24 ($5.1 million)
- higher dedications of land parcels revoked and reverted to the Minister for Climate, Environment and Water in 2023-24 ($4.4 million).

Expenses

The increase in expenses from the 2023-24 Actual to the 2024-25 Estimated Result is primarily due to the working capital budget provision being accessed by the regional landscape boards in 2024-25 ($9.0 million).

The increase in expenses from the 2024-25 Estimated Result to 2025-26 Budget is primarily due to higher expenditure from the Landscape Priorities Fund towards regional landscape boards' initiatives ($2.0 million), increased payment to the South Eastern Water Conservation and Drainage Board for critical safety intervention works ($1.4 million) and higher payment to the Consolidated Account for Crown land sales ($1.3 million) in 2025-26.

Statement of financial position — administered items

Explanation of significant movements

The decrease in net assets between the 2024-25 Estimated Result and 2025-26 Budget is primarily due to further disposal of Crown land in 2025-26.

Statement of cash flows — administered items

Explanation of significant movements

The movements in cash outflows and inflows are generally consistent with the changes discussed above under the statement of comprehensive income and the statement of financial position.

Additional information for administered items

Summary of major variations	176

Objective

To protect people and the environment from harm and support sustainable development for our current and future generations.

The Environment Protection Authority (EPA) was established to administer and enforce the *Environment Protection Act 1993* and Environment Protection Regulations 2009. It also administers and enforces the *Radiation Protection and Control Act 2021*, and the *Single-use and Other Plastic Products (Waste Avoidance) Act 2020*.

The EPA develops environment protection policies, associated guidelines and codes of practice, as well as provides support to the Radiation Protection Committee established by the *Radiation Protection and Control Act 2021*.

Ministerial responsibilities

Minister	Programs	Sub-programs
The Hon. Dr SE Close Minister for Climate, Environment and Water	1. Environment and Radiation Protection	1.1 Environment Protection 1.2 Radiation Protection

Administered items

In addition to the above responsibilities, the agency administers the following items on behalf of the minister:

- Solid Waste Levies received and transferred to the Green Industry Fund consistent with the *Green Industries SA Act 2004*.

Statutes

The Department of the Premier and Cabinet maintains a list of statutes applicable to ministers.

Key agency outputs

EPA seeks to achieve the following:

- Safeguard communities and the environment from the impact of pollution, radiation and waste by ensuring a modern approach to our regulatory role in policy making, development assessment, licensing and enforcement.
- Drive more innovative and sustainable industry practices, by applying new technologies and better practices that will reduce environmental impacts and tackle environmental challenges.
- Collaborate with communities and industry in managing environmental challenges, and together with research bodies and governments, to best manage environmental pressures and proactively identify emerging challenges and opportunities.
- Share our knowledge, science expertise and information, by building our scientific expertise capability and using new technologies to improve our understanding of environmental challenges and support evidence-based decision making.
- Be a trusted and effective regulator, striving for excellence in our capability and performance by developing our staff and building a safe and positive culture to ensure that we perform at our very best as a modern regulator.

Investing expenditure summary

The 2025-26 investment program is $650 000.

	Estimated completion	Total project cost	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget

Sub-program 1.1: Environment Protection

Description / objective

The objective of the Environment Protection sub-program is to achieve a better environment for the health, wellbeing and prosperity of all South Australians through the protection, restoration and enhancement of the environment, and the risk-based regulation of pollution and waste. EPA works closely with industry, the community and government to ensure all reasonable and practical measures are taken to protect, restore and enhance the quality of the environment having regard to the principles of ecologically sustainable development.

EPA administers and enforces the *Environment Protection Act 1993* by:

- licensing, inspecting, interacting and auditing activities that have an impact on the environment
- developing environmental policies and standards
- undertaking environmental assessment of development applications referred via the *Planning Development and Infrastructure Act 2016*
- monitoring and reporting on air and water quality
- delivering programs to encourage and assist industry to avoid and reduce pollution impacting water and air, noise pollution and waste
- supporting local government by providing expertise, training and information relating to the local management of illegal dumping, local nuisance and waste management issues
- undertaking state of the environment reporting.

Highlights 2024-25

- Strengthened climate change capability through the appointment of members with practical knowledge of and experience in climate change adaptation and mitigation to the EPA Board.
- Established a cross-cutting climate change program to optimise the EPA's contribution to the government's climate change mitigation and adaptation commitments, and to meet the EPA's obligations under the *Environment Protection Act 1993.*
- Established an EPA science laboratory.
- Contributed to variations to regulations under the *Single-use and Other Plastic Products (Waste Avoidance) Act 2020* defining prohibited products and commenced developing assessment criteria to regulate prohibitions.
- Undertook stakeholder engagement on the review of the *Environment Protection (Waste to Resources) Policy 2010* to support the state's transition to a circular economy.
- Undertook stakeholder engagement on the review of the *Environment Protection (Water Quality) Policy 2015* to improve protection of groundwater systems against pollution and to recognise cultural and spiritual values in South Australian waters.

Targets 2025-26

- Progress amendments to the *Environment Protection (Waste to Resources) Policy 2010* to support the state's transition to a circular economy.
- Progress amendments to the *Environment Protection (Water Quality) Policy 2015* to improve protection of groundwater systems against pollution and to recognise cultural and spiritual values in South Australian waters.

- Collaborate with government, researchers and industry on the management of emerging and problematic waste streams such as end-of-life renewable energy systems and components including electric vehicles, photovoltaic cells, batteries and wind turbines.
- Continue the legislative process to modernise South Australia's container deposit scheme including engaging with interstate counterparts to investigate national harmonisation of container deposit schemes.
- Draft a discussion paper for consultation on the scope of a climate change environment protection policy, contribute to the Climate Ready Government initiative and continue to strengthen and embed climate change capability in EPA's regulatory functions.
- Commence implementation of the digital and ICT strategy and investment roadmap to achieve high-quality, fit-for-purpose digital services, systems and technologies that enable and enhance the efficient and effective delivery of EPA's responsibilities.
- Work with state and Commonwealth Government agencies towards a consistent approach to reduce use of per- and polyfluoroalkyl substances (PFAS) in products and articles and support safe disposal.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**76 773**	73 647	72 109	74 509
Expenses	**34 820**	36 251	34 704	34 651
Net cost of sub-program	**-41 953**	**-37 396**	**-37 405**	**-39 858**
FTEs as at 30 June (No.)	**195.0**	196.9	197.1	184.6

Explanation of significant movements

The increase in income between the 2024-25 Budget and the 2024-25 Estimated Result is primarily due to higher revenue from the Solid Waste Levy ($1.5 million).

The change in expenses between the 2023-24 Actual, the 2024-25 Estimated Result and the 2025-26 Budget is primarily due to funding provided in 2024-25 for hazardous waste management ($1.0 million), the new laboratory fit-out and relocation to Gillman ($0.3 million) and the EPA Digital and ICT Strategy and Roadmap ($0.2 million).

The increase in income between the 2024-25 Estimated Result and the 2025-26 Budget is primarily due to higher expected revenue from the Solid Waste Levy ($1.8 million) and licences ($1.4 million).

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
% of development application responses and approvals made within statutory timeframes	**100%**	97%	100%	100%
% of licence applications determined within statutory timeframes	**100%**	100%	100%	93%

Activity indicators

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual
% of medium-risk licences inspected at least once per year, and high-risk licences inspected at least twice per year	**100%**	80%	100%	n.a.
No. of active authorisations managed (licences)	**2 500**	2 500	2 500	2 495

Sub-program 1.2: Radiation Protection

Description/objective

The objective of the Radiation Protection sub-program is to protect people and the environment from the harmful effects of radiation by applying the radiation protection principle, to ensure that radiation sources are secured against misuse that may result in harm to people or the environment, to recognise the benefits of the safe and justified uses of radiation, and to promote the principles of ecologically sustainable development.

EPA administers and enforces the *Radiation Protection and Control Act 2021* by:

- assessing applications for new radiation sources, premises and users
- developing and reviewing radiation protection codes, standards, and guidelines
- monitoring radiation management at operating uranium mines and former mining and milling sites
- monitoring radiation use by industry, science, medicine, the public and in the environment
- developing options and assessment of proposals for radioactive waste management
- assessing proposals for new projects involving radiation or radioactive materials
- providing advice on ionising and non-ionising radiation protection to government departments, workers, industry and the public.

Highlights 2024-25

- Commenced risk-based regulatory reforms enabled by the *Radiation Protection and Control Act 2021* including setting cross-agency and function-specific priorities.

Targets 2025-26

- Continue implementation of risk-based regulatory reforms enabled by the *Radiation Protection and Control Act 2021*.

	2025-26 Budget	2024-25 Estimated Result	2024-25 Budget	2023-24 Actual
	$000	$000	$000	$000
Income	**4 919**	4 516	4 516	4 756
Expenses	**2 384**	2 373	2 302	2 049
Net cost of sub-program	**-2 535**	**-2 143**	**-2 214**	**-2 707**
FTEs as at 30 June (No.)	**19.0**	19.0	18.3	15.5

Explanation of significant movements

The increase in expenses between the 2023-24 Actual and the 2024-25 Estimated Result is primarily due to a higher number of staff vacancies in 2023-24.

Activity indicators

	2025-26 Projection	2024-25 Estimated Result	2024-25 Projection	2023-24 Actual

Summary of major variations

Statement of comprehensive income — controlled

Variations to income and expenses are described at the appropriate program level.

Statement of financial position — controlled

Explanation of significant movements

In addition to the variances described under program summaries, the variances to the Statement of Financial Position include:

- the $45.9 million increase in the 2025-26 Budget for total assets compared to the 2024-25 Estimated Result is primarily due to the lower cash deposits in 2024-25 from the payment of surplus cash to the Consolidated Account in 2024-25 ($31.6 million) and an increase in cash deposits in 2025-26 ($14.3 million) predominantly resulting from higher budgeted revenues from the Solid Waste Levy.
- the $21.4 million decrease in the 2024-25 Estimated Result for total assets compared to the 2024-25 Budget is primarily due to the lower cash deposits in 2024-25 from the payment of surplus cash to the Consolidated Account in 2024-25 ($31.6 million), partially offset by an increase in cash deposits and receivables in 2024-25 from operations ($10.2 million).

Statement of cash flows — controlled

All movements are consistent with those described under program summaries.

Statement of comprehensive income — administered items

Explanation of significant movements

Movements in income across the years primarily reflect changes in revenue from the Solid Waste Levy.

Movements in expenditure across the years primarily reflect changes in revenue from the Solid Waste Levy that is transferred to the Green Industry Fund.

Statement of financial position — administered items

Explanation of significant movements

All movements are consistent with those described under program summaries.

Statement of cash flows — administered items

All movements are consistent with those described under program summaries.

Agency: Green Industries SA

Minister for Climate, Environment and Water

Key agency outputs

- Developing and implementing government policy objectives in waste management, resource recovery, single-use plastics, green industry development, the circular economy and sustainability.
- Encouraging innovation and economic growth through the circular economy and achieving sustainability gains economically, environmentally and socially.
- Helping South Australian businesses and industries to reduce their costs through efficiencies in the use of materials, water and energy, develop and implement net-zero emissions targets and plans and achieve sustainability.
- Administering grants to local government, business and industry to drive innovation and support the circular economy through best practice in waste management, resource recovery, recycling and remanufacturing.
- Developing, administering and monitoring the state's waste strategy and food waste strategy.
- Reporting against landfill diversion targets, recycling outcomes and circular economy activity.
- Developing behaviour change programs to improve recycling and waste avoidance practices in households, schools and businesses.
- Functional lead for disaster waste management under the Government of South Australia's State Emergency Management Plan.

Program 1: Circular Economy and Green Industry Development

Description/objective

To promote waste management practices that, as far as possible, eliminate waste or its consignment to landfill; and to promote innovation and business activity in the waste management, resource recovery and green industry sectors, recognising these areas present a valuable opportunity to contribute to the state's economic growth and community wellbeing.

Highlights 2024-25

- Completed the coordinated clean-up, management and resource recovery of waste and debris from the 2022-23 River Murray flood.
- Continued implementation of the next tranche of products to be prohibited from sale, supply and distribution in South Australia through the *Single-use and Other Plastic Products (Waste Avoidance) Act 2020* and coordinated the statutory independent review of the Act.
- Developed and released for public consultation South Australia's next draft strategy under the *Green Industries SA Act 2004* to support the state's transition to a circular economy over the period 2025-2030.
- Approved $4.3 million in funding assistance to businesses, industry, local government and non-government organisations to foster circular economy markets, promote resources efficiencies and offer financial relief to charitable recyclers.
- Commenced a project to invest $20.0 million from the Commonwealth Government Recycling Modernisation Fund — Plastics Technology Stream into a South Australian plastic recycling business for advanced soft plastics recycling.

Targets 2025-26

- Continue implementation of the next tranche of products to be prohibited from sale, supply and distribution in South Australia through the *Single-use and Other Plastic Products (Waste Avoidance) Act 2020*.
- Publish and commence implementation of a new strategy under the *Green Industries SA Act 2004* to support South Australia's transition to a circular economy over the period 2025-2030.
- Deliver the next comprehensive statewide recycling education program to increase the diversion of household waste from landfill to productive use.
- Continue to support businesses, non-government organisations, and local government to deliver projects and programs that contribute to a more circular economy and create a more environmentally sustainable South Australia.

Program summary — income, expenses and FTEs

FTEs as at 30 June (No.)	**37.0**	32.1	32.1	32.0

Explanation of significant movements

The increase in total income between the 2023-24 Actual and 2024-25 Estimated Result is primarily due to funding received in 2024-25 for an advanced soft plastics recycling project, provided through the Commonwealth Government's Recycling Modernisation Fund — Plastics Technology Stream ($18.8 million), carryover of unclaimed funds from 2023-24 for the National Partnership on Recycling Infrastructure ($6.4 million) and increased revenue received from the solid waste levy in 2024-25 ($1.8 million).

The increase in total income between the 2024-25 Estimated Result and 2024-25 Budget is primarily due to funding received in 2024-25 for the advanced soft plastics recycling project ($18.8 million) and increased revenue received from the solid waste levy in 2024-25 ($1.5 million).

The decrease in total expenditure between the 2025-26 Budget and 2024-25 Estimated Result is primarily due to lower expenditure on the National Partnership on Recycling Infrastructure ($11.3 million), the advanced soft plastics recycling project ($8.0 million), River Murray Flood Clean-up Program ($5.8 million) and climate change initiatives ($2.7 million).

The increase in total expenditure between the 2024-25 Estimated Result and 2024-25 Budget is primarily due to higher expenditure for the advanced soft plastics recycling project ($14.0 million), the carryover of committed but unspent funds from 2023-24 for grant programs such as National Partnership on Recycling Infrastructure ($12.7 million) and expenditure on the River Murray Flood Clean-up Program ($5.8 million).

Performance indicators

	2025-26 Target	2024-25 Estimated Result	2024-25 Target	2023-24 Actual
Reduction of waste to landfill *The 2024-25 Estimated Result shows an increase of 36 781 tonnes compared to the 2024-25 Target. Of this, 14 000 tonnes are attributed to contaminated soil disposals linked to the state's urban renewal projects. The remaining variance reflects generally higher tonnages disposed, unattributed to a specific waste stream.* *The 2025-26 Target of 11 000 tonnes reduction compared to the 2024-25 Estimated Result is based on an expected reduction in the disposal of contaminated soils from building projects impacting 2024-25.*	**11 000 tonnes reduction**	4 781 tonnes increase	32 000 tonnes reduction	11 000 tonnes reduction

Summary of major variations

Statement of comprehensive income — controlled

Explanation of significant movements

Variations to income and expenses are described at the appropriate program summary level.

Statement of financial position — controlled

Explanation of significant movements

In addition to the variances described under program summaries, the variances to the statement of financial position include:

- a $52.8 million increase in the 2025-26 Budget for total assets compared to the 2024-25 Estimated Result primarily due to higher cash and cash equivalents from the accumulated build-up in the Green Industry Fund.

Statement of cash flows — controlled

Explanation of significant movements

All movements are consistent with those described under program summary.
